Report of the Selectmen,

For the Year Ending February 15, 1900.

To the Citizens of Hillsborough:

It is again our pleasure to present to you an account of our stewardship. In so doing we have endeavored to make our report as compact as possible, as well as plain. If in your perusal of this report, some expenditures may seem imprudent, we can only say that we consider the circumstances warranted the outlay. The maintenance of the town farm has increased more in proportion than any other one item of which this report treats. The cows which have been kept there year in and year out without change, had become old in the service and our attention was called to the fact that they were showing symptoms of disease. We immediately notified the State Board of Cattle Commissioners, who sent their veterinary to inspect the herd. He condemned one cow and an ox and ordered them killed and from the examination that was made, shows he was justified in so doing. He also recommended that we change our leanto to the other side of the barn, thereby giving proper light and air, which we have done at an expense of $69.51 for so doing, Since that time one other cow has died and we have disposed of four others which were worthless to the town. The agent, we believe, has done well, taking into consideration what he has had to do with. We did not feel like stocking up the farm with more cows, although we did buy one to furnish the farm with milk when the others gave out. There has been but little income from any source, the item of County poor alone being $94.00 less than last year and the item of cream and milk sold $142.50 less than last year on account of the condition of the cattle and, unless the farm is again re tocked with suitable cows, it can only result in a continual expense to maintain.

We have continued the police service the same as established nearly two years ago, which we think has given as good satisfaction as was given under the old system at less than one-half expense.

Not being able to make a contract with the existing Electric Light Co., or with the proposed new Company at the price as instructed to pay at last March meeting, we maintained our old system of kerosene lights. When an agreement was reached on Nov. 13th, the agreement being to pay at the rate of $15.00 per light per year until the town could take action at its annual March meeting, or until a decision was rendered on the vote passed at special meeting. No decision as yet has been given.

This town has been defendant in a guide board case together with the town of Peterborough. This case has been settled by a decision for the towns, they having to pay their own attorneys. Suit was brought by Mary A. Pierce for land damage. This was settled out of court.

The joint suit of this town with Henniker has not been settled. The Commissioners have again reviewed the case and other than receiving their bill for services, we have heard nothing about it.

The Town is defendant in a suit brought by John B. Copp for alleged damage done himself and team on the highway on the new Henniker road, so-called. This the Selectmen have tried to settle, but have so far failed. The annual warrant contains an article in regard to this.

On July 2, 1899, we were notified that the covered bridge on the new Henniker road was on fire. We immediately took men and pails to fight the same, but upon reaching the bridge it was found to be totally destroyed. Steps were immediately taken to ascertain how the fire caught, but nothing definite was learned. It was thought that the same caught by someone smoking. Steps were immediately taken to replace the superstructure and plans and estimates for both wood and steel were obtained. The old abutments were inspected by competent engineers and were pronounced unsafe for a new bridge, one of them not being pronounced so until the same had badly cracked and settled. We advertised for bids for both wood and steel and upon the 11th day of July these bids were opened in public at the Selectmen's room. After hearing the matter discussed, both for and against both kinds of bridges, we were of the opinion that the town would be best served in the end by building a steel bridge. The

stone work was awarded to Charles A. Bailey of Suncook, N. H., and the steel superstructure to the Berlin Iron Bridge Co. of East Berlin, Conn. The same was completed and opened to the public on October 28, 1899. The total cost, including all incidental expenses, was $7,147.48 and we have issued town note bearing interest at 3 per cent., payable on demand, to pay for the same.

Our town notes have heretofore been drawing interest at 4 per cent. On the first of last May we decided to refund our town debt upon a 3 per cent. basis. This we have done and, as our town debt now stands, it means a saving of $354.00 each year upon this item alone.

Our expenses this year in some of the different departments of which this report treats have exceeded the amounts thought necessary. Notably so at the Town Farm, which is $292.87 more than last year; also our law suits. The expense on the guide board case was $75.50. The suit for land damage was $15.00. Additional expense on the Henniker road case for Commissioners' bills was $39.20. The expense of replacing the ox killed at the town farm was $32.00; also the paying of all back interest due on town notes last year, amounting to $322.00, besides paying all interest in full to June 1st, 1899; also our house at the town farm was badly in need of repairs. This we have painted, inside and out, and papered and whitewashed. The police station we have painted inside and out and shingled it, both items costing the town $139.72. We have left $591.60 more in the treasury than last year and assets to the amount of $1,168.96 more than last year and, other than a bill due the Hillsboro Electric Light Co. for street lights from Nov. 13, 1899, until the present time and a bill due Burnham, Brown & Warren as attorneys in suit brought by Charles A. Jones and others to compel us to make a five-years' contract for street lights, all outstanding bills are paid.

In closing we wish to thank the citizens of Hillsborough for the assistance they have rendered us in the management of their town affairs.

The town voted to use the balance for the Fuller Public Library.

The Sarah C. Fuller bequest of $1000.00 to the Fuller Public Library, subject to the same conditions from the town as the Mark W. Fuller bequest, excepting that the First Selectman of said town shall visit the Fuller plat four times each year, forever.

The Abby C. Mordo bequest of $100.00, drawing interest at 4 1-2 per cent., the income to be paid to church at Hillsboro Center, annually.

The Caroline M. Burnham bequest of $200.00, the income to be used to forever keep in suitable condition the Dr. A. C. Burnham plat in the Deering cemetery.

The Estate of Sarah Taggard bequest of $100.00 to forever care for their plat in the cemetery between the Upper and Lower Villages in this town, keeping the same in suitable condition.

The estate of Maria Travis, $100.00, the interest to be appropriated in keeping in repair for all time the burial lot of her late father and mother, Mr. and Mrs. Jonas Baldwin.

By the will of the late Abney Symonds this town and the town of Windsor are equal sharers in the remainder of the estate of the late Abney Symonds after paying all debts and legacies and the income *shall be used yearly towards paying the yearly expenses of said towns and for no other purpose.* We have received on account of this bequest, $2,200.00.

The Catherine W. Bascome bequest, $100.00, to forever keep in suitable condition her burial plat in the Lower Village Cemetery, so-called.

We publish these, so that each incoming Board of Selectmen may know what their duties are concerning the funds that have been bequeathed to the town, enabling them to comply with their requirements.

REPORT OF CHARLES S. PERRY, OVERSEER OF POOR.

In this report I wish to call your attention to the item of aid rendered Xavier Pero.

Mr. Pero was taken sick with typhoid fever and applied for aid. This I was obliged to give. I notified the County Commissioners of the case and they instructed me that it came under the Board of Health. I notified the Board of Health and they, after viewing the case, said that as the case did not warrant quarantine and as they should not quarantine the case, that it did not come under their jurisdiction.

The Statutes read that *when* any person or family is placed in quarantine by a Board of Health to protect the public against any dangerous, infectious or contagious disease, it shall be their duty to assist them while in quarantine. Under these circumstances the Board of Health refused to consider this bill as one of their legitimate expenses. They say this case

[OVERSEER OF POOR, CONTINUED.]

was not quarantined, was only placarded the same as a case of measles would have been, and that under no existing circumstances could this case come under them, unless he had been quarantined, thereby making it one of their legitimate expenses. The bill has been paid by the town, the Board of Health refusing to do so and also the County Commissioners, as above stated, and this is the reason why it appears as it does in my report.

REPORT OF

Hillsboro Bridge Village Fire Precinct.

Commissioners:

ALBERTO H. HEATH, WILLIS S. MARCY,
CHARLES S. PERRY.

Frank F. Goodwin, Treasurer. Frank E. Merrill, Clerk.

The Fire Department has been called out five times during the year, and there have been two still alarms, but fortunately they have all been put out without much damage.

The Fire Department is in good condition and the members of the companies have answered promptly to the several alarms, and deserve much credit for their prompt work.

This year there has been added one more alarm box, No. 22, at the corner of School and Brown, making eight in all, located at the following places:

28 Cor. Church and Myrtle streets.
47 Railroad Station.
56 Cor. Bridge and Mill streets.
62 Main street, near Carter's ice house.
76 On School House.
78 Central square.
82 Bridge street, near Deering line.
22 Cor. School and Brown.

At a meeting of the Board of Water Commissioners held March 22, 1899, the following officers were chosen for the ensuing year:

John B. Smith, Chairman,
W. O. Story, Clerk,
Stephen Denison, Superintendent,
Brooks K. Webber, Counsel.

On June 23, 1899, the vacancy on the Board created by the death of the late Stephen Denison, was temporarily filled by the appointment of Clarence C. White, according to Section 2, Special Act of Legislature, dated February 25, 1897.

FINANCIAL.

The Board of Water Commissioners respectfully submit their third annual report as follows:

CASH ACCOUNT.

Cash received for water rents, -	$4,267 15	
Cash paid to Precinct Treasurer,		$4,267 15

DISBURSEMENTS.

Approved bills or invoices - -	$1311 34	
Interest on bonds - - -	1800 00	
Sinking Fund - - - - - -	1000 00	
		$4111 34

CONSTRUCTION.

The amounts charged this year are:

Excess renewal - - - -	$139 40
Service connections - - -	193 31
Total - - - - - -	$332 71

During the year there has been 253 feet of 6-inch cement-lined pipe re-laid with 8-inch cast iron in the Jones meadow, so-called. This work was considered necessary, in view of the fact that it is on the main supply pipe from Loon Pond; that the pressure at this point is the greatest between the Pond and the reservoir and that the locality is such that should a leak occur in wet weather it would be very difficult and expensive in making repairs.

The cost of this work has been divided as follows;

Renewal account - - - -	$157 72
Excess renewal account - -	139 40
Total - - - - - -	$297 12

The amount charged to Renewal Account has been re-charged to Income, while Excess Renewal has been included in Construction: standing on the books as Excess Renewal. "Excess Renewal" represents the difference in cost of re-laying the above pipe over the original cost of the old cement-lined pipe. We have also laid 483 feet 1¼ inch galvanized iron service-pipe, on Mill street, at a cost of $158.82.

MAINTENANCE.

Expense - - - - - - -	$221 70	
Care and repair - - - - -	352 20	
Renewal - - - - - - -	157 72	
Interest on bonds - - - - -	1,800 00	
		$2531 62

INCOME.

Gross receipts for water rents -	$4267 15	
Supply appreciation - - -	123 24	
		$4390 39
Less maintenance - - -		2531 62
Net income for year ending Feb. 15, 1900		$1858 77

"Supply Appreciation" is the enhanced value of supplies and material on hand caused by the advance in iron products.

In estimating the annual income from the water-works, the citizens of our Precinct should bear in mind that they are receiving each year the value of $1,000.00 in hydrant rental, of which no account is made. This is the amount the old company charged for this service, and in many municipalities where the water-works is public property, an annual appropriation is made, or where not actually appropriated and collected, an equal amount is charged on its books, thus showing in the yearly income.

Report of the Board of Health.

To the Selectmen and Citizens of Hillsborough, N. H.:

There has been no epidemic of disease prevalent during the year past. But one case of scarlet fever and two cases of typhoid fever have been reported, and two of measles, both of which latter cases came from other towns, but by prompt quarantine the spread of the disease was prevented.

Your Board wish to repeat with emphasis, as suggestion made last year: Chapter 93, Section 2 of the Public Statutes provides that "NO CHILD SHALL ATTEND ANY PUBLIC SCHOOL UNLESS HE (OR SHE) HAS BEEN VACCINATED OR HAD THE SMALL POX." That disease has been and now exists in cities and towns within a few miles of our borders, and the constant communication which is had between these points makes it not unlikely that it may be brought here on any day. We have reason to believe that the above quoted statute has not been enforced, and that there are probably hundreds of children and young persons who are unprotected. The disease is contageous even before it can be determined what it is, and many persons thus be exposed, so we again urge the School officers TO DO THEIR DUTY in this respect, and EARNESTLY REQUEST PARENTS to attend to this matter themselves, and thus allay in advance the excitement an isolated case would produce.

Much complaint was made during the early part of Winter concerning the bad taste and odor of the water. An analysis by the State Chemist confirms the opinion repeated-

ly expressed by the Board and others, that the objectional features were due solely to natural causes, and would right themselves in due time. We recommended that the water pipes be regularly flushed at frequent intervals, especially at the "dead ends."

There have been 31 applications made for sewer connections, and connections completed in 15 cases.

Respectfully submitted,

JOHN GOODELL, M. D.,
BROOKS K. WEBBER,

Report of the Board of Education

—FOR—

Special School District.

During the past year several changes have occurred in our school. At the close of the spring term we received and accepted the resignations of Prof. James N. Pringle and Miss Ada H. Buxton. Prof. Pringle resigned the principalship to accept a higher-salaried position in Massachusetts. Prof. Pringle is a faithful and energetic worker and accomplished good results in our school.

Miss Buxton has been for years one of our most successful teachers and resigned her position as assistant in the High school to take a well-earned rest.

After considering numerous applications for the vacant positions, we elected the following teachers for the ensuing year: Prof. Chas. A. Tracy, principal; Miss May Carr Tewksbury, assistant. Misses Kendall, Manahan, Powell, McKellips and Carter were re-elected.

By a different division of the work in some of the grades, we were able to dispense with the services of an assistant in the Grammar school for this year at least, thereby saving the expense of one teacher.

During the fall term Miss Kendall resigned her position as teacher in the Grammar school to accept a more lucrative position elsewhere. To fill this vacancy Miss Winifred Foss was engaged for the winter term.

Drawing has been continued under the able instruc-

tion of Miss Butler with very satisfactory results. Some of the advanced pupils are now doing work in water color, the pupils paying for the extra material.

Music was again taken up during the fall term under the instruction of Miss Alys Putnam of Boston. Through the efforts of Miss Putnam and the pupils a small portable organ was purchased for the school without expense to the district. We trust that the study of music will be continued as a part of our regular school course and believe the results will be beneficial to our school and town.

But little has been expended for repairs during the past year. Some new flooring has been laid in two rooms and it will probably be necessary during the ensuing year to place a new floor in the north basement of the school building; also new fire-brick lining in fire box under boiler.

Nothwithstanding the several changes in our corps of teachers good progress has been made in the school work during the year. Prof. Tracy is proving himself an able instructor and the teachers, as a whole, are working conscientiously and harmoniously to make our school one of the best in the State. If the parents will all give their hearty support and co-operation, we believe this result may very soon be attained.

Respectfully submitted,

WALTER J. A. WARD,
MARY E. BROWN,

Report of Board of Education,

TOWN DISTRICT,

For the Year Ending February 15, 1900.

BOARD OF EDUCATION:

Alden P. Farrar,

Edgar Hazen,

Lizzie S. Tuttle.

Wm. F. West, Clerk of District.

There is always a chance for improvement everywhere, and we are well aware that our rural schools are the butt of many disadvantages; but notwithstanding all this, much improvement has been made in the past year.

It is a pleasure to note the eagerness with which the teachers and scholars have worked together for the same end, both seeming to realize the responsibility placed upon them.

The statement, "As is the teacher, so is the school," has a large measure of truth. Yet the best teachers may be handicapped by unfavorable conditions. Nevertheless, the first necessity is for good teachers. As conditions now ore, we cannot expect graduates from complete courses to give their lives to the rural schools. These facts are well known, and various attempts have been made to meet them. There is the teachers' institute of one, two and three days, the summer schools of two or three weeks, and teachers'

associations. We would strongly recommend that the teachers avail themselves of these privileges, and take a live interest in the work they are doing.

There has been only one change of text-books. We have introduced Metcalf's Grammars, and already we notice marked improvement in the study of grammar. But still there is room for more advancement in this line, to come up to the standard attained in other studies.

A change of readers would bring better results. The readers of the "I see a cat" variety are being crowded out by books that teach not simply new words, but facts of history, natural history, and lessons from nature.

We should try to keep our schools in pace with the times. Education must bring the practice as nearly as possible to the theory. As the children now are, so will the men and women soon be. The good-enough-for-our-fathers will not fill the bill for them. We must educate them for twenty years hence.

Through the generosity of the citizens at our last school meeting, we have been enabled to have a liberal school year, besides repairing the schoolhouses in the middle section, and some painting and repairing was done in the lower section. It is hoped that the same generous spirit will prevail at the coming meeting, as some of the houses are out of repair in the other sections, and many of the houses throughout the district need painting.

The school year was to have been thirty weeks, but on account of sickness, and for other reasons, some of them were shortened. Thirty weeks is none too much for the work that is required of the children. A few years ago when "the three R's, reading, 'riting and 'rithmetic," were the standard, with twenty weeks to learn them in, meant more to the child then, than thirty do now.

[TOWN SCHOOL DISTRICT, CONTINUED.]

Much more is required of our children than was of us, and they must have more school days to work in.

There is nothing good to be had in these days without expense, and it is idle to expect that our rural schools are to be made capable of satisfying our modern ideas at the same cost as those which we seek to supplant. We plead for a broad and generous support of the rural schools and the best possible education for our country people, whose numbers and taxes entitle them to the best.

Thanking you for your interest and generosity in the past, we ask that the same generous co-operation may be extended in the future.

Respectfully submitted,

ALDEN P. FARRAR,
EDGAR HAZEN,
LIZZIE S. TUTTLE.

Report of the Selectmen,

For the Year Ending Feb. 15, 1901.

To the Citizens of Hillsborough:

In presenting a report of the receipts and expenditures and the financial condition of the town, the first subject that presents itself is the town indebtedness, which has assumed such proportions that it cannot readily be concealed. The outstanding notes against the town, as the report shows, amount to $37,824.04. The yearly interest on this amount, at 3 per cent., is $1,134.72. If the town desires to take the debt in hand and commence some policy of systematic reduction, a sum of $2,000 must be raised and set aside to be applied to the payment of notes and interest. At the rate indicated it will require at least 30 years to liquidate the debt.

A comparatively large amount of taxes has been abated, as follows: To J. H. T. Newell, for 1896, $20.40; to G. W. Lincoln, for years 1897, $50.94; 1898, $44.91; 1899, $31.61; 1900, $90.65, amounting to $258.51. The reason for these abatements is that, as they must some time be abated, it might as well be done now and not reckon them year after year as assets of the town when there is not a cent in them.

The present Board of Selectmen found the town engaged in three law-suits, known as follows: The Copp

case, the Beard road case, and the Electric Light case. They have all been settled on the best terms attainable, at an expense to the town of $845.30. We are happy to state that the town is unincumbered with any judicial contests at the present time.

The town has accepted bequests from various estates to the amount of $6,254.70. The incomes of these legacies are to be used for various purposes as enumerated in the wills of the testators. The income of one only, that of the late Abney Symonds, is to be used wholly for the benefit of the town. In view of the rather complicated nature of the management of these donations, would it not be well to choose a trustee or agent to have charge of them ?

Depot street has been in very bad condition for several years at certain seasons. The cause was accumulation of water threatening to undermine the foundations of the buildings and the bank wall on the lower side of the street. To remedy this increasing danger, it was thought best by the board to lay a sewer of sufficient capacity to carry off the surface water along the lower side of the street with manholes at intervals, from the Public Square under the rail road crossing, thence in Water street to the outlet on land formerly owned by Samuel Clement, opposite the Hatch Burnham place. The work was done under the supervision of the road agent. The cost was $743.83, a sum larger than the estimate before the work was commenced. It is believed that the outlay was judiciously made and that the street is permanently improved thereby, and a saving of damages effected for the future.

The sidewalks in Bridge Village were found to be in bad condition, both the concrete and the wooden walks. Under the supervision of the road agent, the old walks were repaired and in some places new ones laid. The sum of $1,000 appropriated at the last annual meeting for the above purpose, was exhausted before the Selectmen were

advised of the fact, and a small draft was necessarily made on the fund appropriated for current expenses. But there will be no more need in the immediate future to raise any money for the repair and construction of sidewalks. The highway tax required by law, if judiciously and economically expended, will be amply sufficient to keep the highways and sidewalks both, in repair.

The town farm has demanded and received the attention of the board. The agent for the four years previous, left the farm on April 1. The stock was found in a sickly condition, the house destitute of provisions, and every thing about the premises suggested bad management. This state of things, through the exertions of the agent, has been partially corrected. The diseased animals have been cured by proper treatment, or exchanged for healthy ones without expense to the town. The broken and worn tools have been repaired and made serviceable, and a few new ones purchased. The scanty house furnishings have been replenished to some extent without perceptible cost to the town. The farm and its belongings are now in such condition that with thrifty and economical management the balance against it in years to come should be very small, if any. But unless better results can be assured than have been secured for a few years previous to this year, it would undoubtedly be wise on the part of this town to dispose of the property.

This Board of Selectmen found the matter of lighting the streets in an unsettled condition. At the last annual meeting the town instructed the Selectmen "to contract with some responsible person, firm or corporation, to light the streets of Hillsborough by electricity, at a price not to exceed the sum of $13.00 per light per year, for the period of one year only." As no "person, firm or corporation" could be found with which to make such a contract, the Selectmen could not make it, and they, perhaps unwisely decided to continue the service at the rate of $15.00 per light per annum, till May 1st, next. But the Selectmen think they have assurance that if the town should see fit to vote a five year contract at $13.00 per light per annum on the basis of the present number of lights, a responsible party can be found with which to place it.

TRUST FUNDS.

The town holds in trust the following funds, the income of which is to be used for the purposes specified below:

The Mark W. Fuller bequest of $2000.00, drawing interest at 6 per cent. The income to be used, first, in keeping in suitable condition the Fuller plat in the cemetery between the Upper and Lower Villages; the balance to be used for the benefit of the inhabitants of the town. The town voted to use the balance for the Fuller Public Library.

The Sarah C. Fuller bequest of $1000.00 to the Fuller Public Library, subject to the same conditions as the Mark W. Fuller bequest, excepting that the First Selectman of the town shall visit the Fuller plat four times each year, forever.

The Abby C. Murdo bequest of $100.00, drawing interest at 4 1-2 per cent., the income to be paid to the Methodist church at Hillsboro Center, annually.

The Caroline M. Burnham bequest of $200.00, the income to be used to forever keep in suitable condition the Dr. A. C. Burnham plat in the Deering cemetery.

The Sarah Taggard bequest of $100.00 to forever care for her plat in the cemetery between the Upper and Lower Villages and keep the same in suitable condition.

The estate of Maria Travis, $100.00, the interest to be appropriated to keeping in repair for all time the burial lot of her late father and mother, Mr. and Mrs. James Baldwin.

By the will of the late Abney Symonds the town has received $2604.70, the income of which *shall be used annually towards paying the yearly expenses of the town and for no other purpose.*

The Mary E. M. Smith bequest of $50.00, the town to expend the income of the same in maintenance and care of her burial lot and that of her deceased husband, Jerry Smith.

The Catherine W. Bascome bequest, $100.00, to forever keep in suitable condition her burial plat in the Lower Village cemetery, so-called.

We publish these, so that each incoming Board of Selectmen may know what their duties are concerning the funds that have been bequeathed to the town, enabling them to comply with their requirements.

REPORT OF

Hillsboro Bridge Village Fire Precinct.

Commissioners:

ALBERTO H. HEATH, CHARLES S. PERRY,
DANIEL J. HARRIGAN.

Frank F. Goodwin, Treasurer. Frank E. Merrill, Clerk.

The Fire Department has been called out but twice during the year, both times the fires being quickly brought under control.

The Department is in good condition, and the Precinct has cause to congratulate itself upon the prompt and efficient manner in which each company responds to the alarm.

The Fire Alarm has been tested during the year and is now working correctly, and was pronounced by the expert to be entirely capable of doing all required of it.

For various reasons the present time was not considered favorable for applying to the legislature for a charter for the electric light plant, and at the suggestion of parties interested in placing article 8 in the warrant of 1900 the matter was dropped.

Report of the Board of Education

—: FOR :—

Special School District.

The regular daily work of the schools was resumed at the commencement of the fall term under the supervision of of Prof. Tracy whose record the year before proved him to be the right man for the place, Miss Tewksbury, Miss McKellips and Miss Powell—three popular teachers—accepted their re-election. The School Board was sorry to receive the resignations of Miss Manahan and Miss Carter—successful teachers in the Intermediate and Primary grades.

Their places were supplied by Misses Blanchard and Pierce, and Mrs. Shoults was elected to the vacancy made by transferring Miss McKellips to the Grammar School.

The Seventh and Eighth Grades were so much larger than usual, that an additional teacher was required for part of each day. Miss Perry, a well known town teacher, was elected for this purpose.

Drawing was continued until the winter term under the instruction of Miss Butler, when, owing to illness in her family, the lessons were omitted, but will be resumed as soon as possible.

Miss Putnam, teacher of music, received and accepted a call to Claremont early in January, and Prof. Newman was elected in her place.

New seats were purchased for the First Primary room during the summer vacation, a new floor was laid in the

north basement, and the fire box under the boiler was relined with fire brick. Special appropriations were made for this purpose at the last school meeting.

The steps of the front porch are becoming unsound, and will soon be dangerous if not repaired. A new grate is needed for the furnace and the addition of storm windows on the north side of the building, would make those rooms more comfortable in cold weather, and save fuel as well. The efforts of Prof. Tracy to raise the standard of scholarship in the grades below the High, have been met by earnest co-operation and hard labor on the part of the teachers, and the pupils as a whole, have done excellent work.

Another year has been added to the High School course, making for the present a three or four years course, optional. The fourth year is intended to complete the preparation for college, and place its graduates on a plane with the graduates of any High School.

Prof. Tracy is working hard to accomplish this result. He has been ably assisted by Miss Tewksbury, and already there is a larger membership and an increased interest. The Seventh and Eighth grades are so much larger than heretofore, that we may look for larger classes hereafter in the High School. Parents are realizing more and more the necessity of a good education. If they will extend their sincere sympathy and support, the success and prosperity of our schools will well repay them.

Respectfully submitted,

JOSEPH W. CHADWICK,

For the Year Ending February 15, 1901.

No American problem is more urgent in its demand for solution than that of the future of the public schools. In the talk on "How shall we improve our ungraded schools," at the Teachers' Institute held Jan. 11th, this year, it was urged upon us to lengthen our school year. This has been our aim for the past few years, and this year we succeeded in obtaining 31 weeks, besides painting the school-houses, and putting the buildings in repair in the Upper Section.

Two new stoves have been bought which is added to the bill on incidentals.

We are depending on the generosity of the people to allow us enough to make the necessary repairs in the Lower Section, with enough to run our schools 30 weeks or more the coming year.

There must be good school privileges for the country children, or America is doomed to meet worse conditions than have ever threatened her. There is no problem for the statesman more serious than that of the future of the country school. The boy is not to be educated for himself, nor for his father, but for society and the state. And because this is so, we ought to be generous and furnish the general appliances and means for an education.

The only change in text-books in the past year has been in the readers. Cyr's Readers being introduced have been duly appreciated by both teachers and pupils. We have introduced from time to time some excellent supplementary readers.

The importance of supplementary reading is recognized by every person familiar with the progress made in schools in the last few years. It has for its purpose to open the whole spiritual universe to the child. It brings him into contact not only with distant lands, but with the great minds of the present and the past, and with all matter temporal and eternal, making him the heir of all ages. Through supplementary reading the child's horizon is widened at a very early age.

It has been said, "As the teacher, so the school,"—a truth universal and unchangeable. In no other occupation are there so many ways and opportunities for wasting time and energy, and making mistakes, as in teaching. It is far more difficult to mold mind than matter, far more difficult to know what to do, how to do, and when to do, than in any of the industrial trades. Is it not befitting then that those who take charge of our rural schools, shall be fitted to render a service to the children who are placed under their care, which will prepare them to do the work the world needs to have done.

Then let us urge upon our teachers the necessity of taking a live interest in their work, attend teachers' meetings and the institutes—especially when they come to your own town—and attend the summer training schools, if possible.

We believe the large majority of our teachers in the past year have been faithful to their charge and with good results.

The teachers' wages have been $20.00 per month, with three exceptions, Nos. 6, 4 and 13. These schools are ex-

ceptions. It will be our judgment to pay no teacher over $20.00 per month, unless they are normal students.

It is evident to all friends of the public schools that there should be a more complete, better organized co-operation of the home with the school. The school is an institute created and supported for the benefit of the children. Then let us plead for the hearty co-operation of the parents, with both teachers and School Board.

Respectfully submitted,

EDGAR HAZEN,
LIZZIE S. TUTTLE,
JAMES M. RAY,
Board of Education.

Report of the Selectmen,

FOR THE YEAR ENDING FEB. 15, 1902.

To the Citizens of Hillsborough:

Obedient to a custom long ago established, we herewith present to you our annual report.

In so doing we have in almost all cases, followed in the footsteps of those who long ago preceded us, changing nothing because it is old and establishing nothing because it is new; but confining ourselves to a simple government, administered with rigid economy, with perfect honesty, regardless of our political beliefs and with due regard to the rights and welfare of you all.

During the past year we have had many expenses that were not taken into consideration when the appropriations were made. Notably so in the Board of Health department. The maintenance of this department can never be anticipated, but has to by attended to when it comes.

So it is with our Highway department, taking into consideration our severe storms. Also as nearly all of our old wooden bridges have had to be replaced with new stringers and plank, it has increased the cost of maintaining the highways, several hundred dollars more than it otherwise would have cost.

The bridge at the foot of Mill hill, so-called, will have to

be repaired or rebuilt during the coming summer. At this time and until the water can be shut off, so that a thorough examination can be made, no estimate can be made as to what this expense will be.

We were instructed at our last annual town meeting to sell the town farm and such other property of the town belonging thereto. This we have done and have applied the proceeds of that sale, after paying all expenses of sale, to the payment of our town debt, amounting to $2527.79 to so apply. [See account of sale in this report.]

On July 20th, your Tax Collector, J. Frank Sullivan, having resigned, we appointed in his stead, Amos A. Wyman. He needs no words of praise from us, as his report hereto attached, speaks volumes for itself.

Our expenses for school supplies, as you will see, have more than doubled this year, caused to a certain extent by old bills due last year not being paid. This is not a good business principle and should not be so.

Last year no appropriation was made for sidewalks, as it was thought to be unnecessary, and what repairs have had to be made have been done by the highway agent and the expense is included in his account.

There have been several requests that a sidewalk be laid at the Upper Village, which would not be a very expensive affair. Ordinarily this could have been done by the highway department at not much extra expense. As our expenses were in different ways exceeding the appropriations that were made, it was thought best to not this year so build, and besides, no appropriation was made for this purpose.

In summing up the different items of expense this year, compared with last, and which was taken as a basis in making the appropriations, that for school supplies has cost $471.52 more than last year; for street lighting it has cost $269.65 more than the appropriation on account of addi-

tional time covered. On Board of Health account, $570.96 more than one year ago; on Highway account $863.02 more than one year ago; making a total of $2174.95 for these four items alone, besides some other old bills due last year, that were not presented for payment. We have reduced our assets and unavailable assets, for the reason that our town farm and furnishings are not now available for that purpose, and we have also reduced our outstanding notes a much larger amount, and also our net town debt, besides having in the treasury a sum of money sufficient for any ordinary expense, until the taxes are again assessed and collected.

In laying down the duties entrusted to us, we wish to thank you all for the confidence you have reposed in us and the pleasures we have found in being associated with you, and the many words of advice given us in the discharge of those duties.

Annual Report.

Respectfully submitted by

LEON E. ANNIS,

Report of the Board of Health.

To the Selectmen and Citizens of Hillsborough, N. H.

During the year contagious and infectious diseases have been reported to the board as follows: Smallpox, typhoid fever, scarlet fever and measles. The houses in which the contagious diseases occurred were quarantined at once and in every instance the disease was confined to these houses, although in one family there were five cases of smallpox, and with the exception of two weeks, the house was quarantined from Feb. 22d to May 9th.

Vaccination, which in accordance with the Public Statutes, "shall be enforced by the Board of Health" has not been overlooked and we believe all the scholars of the village schools have been successfully vaccinated, though probably there are some in the town districts who have not been and we would call their parents' attention to this matter, as they must be dropped from the schools unless the law is complied with.

The surroundings of Loon Lake, our water supply, have been inspected from time to time and are in good sanitary condition.

There have been twenty-one applications made for connection with the sewer, and of these seven have been connected.

Report of Trustees of

Fuller Public Library.

The trustees gratefully acknowledge the receipt of books from the late Mrs. Westcott of Boston, Dr. G. P. Conn of Concord, the State of New Hampshire, and the generous gift of money from the Hillsboro Woolen Mill Co.

The trustees have not been able to make what appeared to them satisfactory arrangements in regard to some contemplated improvements.

As the card catalogue can be used only by those who can call at the library, the trustees propose to issue at intervals during the year, for home use, lists of all new books, with card numbers, these being in effect supplementary catalogues.

Report of Board of Education.

TOWN DISTRICT.

For the Year Ending February 15, 1902.

In presenting this customary report it is a pleasure to be able to state that a good degree of progress has been made, and although there has been instances of partial failure, the schools, as a whole, are in excellent condition.

The money raised by town and district has been judiciously expended, giving the district thirty weeks schooling, besides doing some repairs and paying other necessary bills. A new stove has been purchased, which added to the bills for incidentals.

The district has been wise and liberal in its appropriations for the support of the schools, and we trust that this spirit of munificence will continue. We think that those who vote against raising money for school purposes vote a much larger per cent. out of their own interests than their tax would be, besides robbing the children.

Ignorance may be bliss, in some instances, but certainly "Knowledge is power," and it is far cheaper to educate our children at home, and better, for many reasons. The energy that it requires to get a living in New Hampshire develops a courage that tells for a lifetime. Then give the youth a chance, that they may maintain the already well-earned

reputation that New Hampshire is a good state to emigrate from.

It has been the aim of the School Board to raise the standard of the schools. To do so, there are certain necessary essentials, among which are good teachers, good books, a regular attendance of the pupils, and a unity of effort.

The parents should co-operate with the teacher and School Board, and see that their children are in school every day unless sickness prevents. In no way will their efforts be more fully appreciated and they will find that their children have increased interest in school work.

At no time has there been so fine a set of school books at the command of our children as now. The supplementary reading is especially commendable. It has been said that "the first four years of school should be spent in learning to read and the remainder of the time in reading to learning."

In conclusion we tender our sincere thanks to all for past favors and for the interest manifested in the welfare of our schools.

Respectfully submitted,

LIZZIE S. TUTTLE,
JAMES M. RAY,
ORRIN S. HUNTLEY,
Board of Education.

ALBERTO H. HEATH,

EDWIN L. CARR,
} Selectmen of Hillsborough.

Report of the Selectmen,

For the Year Ending Feb. 15, 1903.

To the Citizens of Hillsborough:

We herewith present for your inspection our annual report for the year ending Feb. 15, 1903, containing the reports of all other town officers including Precinct Officers and School Boards.

After you have carefully read the foregoing report we trust that our official acts will meet with your approval and your criticism will be tempered with the feeling that in all our acts we have endeavored to work for the best interest of our town.

The ordinary expenses of the town show a considerable decrease from former years, leaving a balance of $4,723.53 of the amount appropriated which has been applied to the reduction of the debt.

The public highways should interest all, as no expenditure of money concerns so many people as that spent in this direction and no officer of the town receives so much criticism as the Highway Agent.

The amount of money we are obliged to raise for the repairs of highways is fixed by law. As no extra money was appropriated for the purpose of breaking roads or building sidewalks, the money expended was taken from the above amount.

We think that a careful scrutiny of the Highway Agent's report will convince anyone that the present Highway Agent has done well with the amount at his disposal.

For several years but little attention has been given to our sidewalks and we do not think it is economy to let them go until it will require a large amount of money to put them into safe or passable condition. A small sum should be appropriated each year for this purpose. The age in which we live is one of progress and activity, and no town can grow and prosper without being abreast of the times.

STONE BRIDGE.

The town was very unfortunate last spring in having the north end of the stone arch bridge at Hillsboro Bridge so badly damaged that repairs seemed impracticable after consulting with engineers that were experts in the business.

The Selectmen could see no other way but to remove that part of the old bridge and build new to correspond with the work on the south side. It has cost more than the estimate, for the reason that to get a suitable foundation, a coffer dam had to be built and a large amount of rock excavation made that was not expected. Owing to the death of one of the contractors, the town has been unable as yet to settle with the estate and there is a small amount due on account of contract.

The subject of taxation is one of vital importance to every citizen and deserves careful thought. We have seen our tax rate for the past few years constantly increasing. While we have perhaps received full equivalent for the money expended, there is a limit, and we believe there should be more voters present and more interest taken when appropriations are made.

We would refer you to the report of the Overseer of the Poor, Board of Health and all other town officers.

Respectfully submitted,

ALBERTO H. HEATH,
IRA W. JACKMAN,
EDWIN L. CARR,
SELECTMEN OF HILLSBOROUGH.

Income for maintenance and care of her burial lot and that of her deceased husband, Jerry Smith.

Catherine W. Bascome bequest	100 00

Income for keeping in condition her burial plat.

	$6254 70
Net town debt	$40076 48
Trust funds	6254 70
Actual debt	$46331 18

All trust funds have been paid into the town treasury and used to reduce the town debt. As they are held in trust, the income only to be used for certain purposes, we believe they should be invested in Savings Banks or in securities, and separate account of the incomes and expenditures should be made in the future.

Report of the Board of Health.

To the Selectmen and Citizens of Hillsborough, N. H.

The sanitary conditions of the town have been good. In a few instances where drainage was bad, houses have been ordered connected with the sewer and there are still some which should be connected, but for various reasons these have not been forced to do so.

Of the contagious diseases, two cases of measles only have been reported.

The premises surrounding Loon Lake have been kept in good condition, and the water has been analyzed at the State Laboratory and pronounced good.

Auditors' Report.

The undersigned, Auditors for the town of Hillsborough, have examined the accounts of the Selectmen, Treasurer, Tax Collector, Town Clerk, Highway Agent, Judge of Police Court and Overseer of the Poor, and find all payments properly vouched for.

We desire to call attention to the report of the Selectmen in reference to the trust funds and concur in their suggestions relating thereto. Part of these funds were received a few years ago and turned into the treasury, thus apparently reducing the debt of the town. We understand that most, if not all, of these funds were given to the town in trust with the condition that the income should be devoted to special purposes. As a matter of fact, there has been no income, but the different Boards of Selectmen have fulfilled the spirit of the conditions by paying from the treasury what might be considered the amount of income.

To conform to the provision of the Public Statutes relating to trust funds, we recommend that such of these funds as were accepted without provision for payment of a stated interest, be at once withdrawn from the treasury and invested according to the law, by the Selectmen or a special committee.

GEORGE W. HASLET,
LEON ANNIS,
WILLIAM H. DENNISON,
Auditors for Town of Hillsborough.

As will be seen by the above report, the circulation for the past year has increased about 65 per cent over that of 1901, showing a greater use of the library. We would be glad to see a larger increase in circulation of the "non-fiction" books, so called. It is doubtless true that the majority of reading is done purely for entertainment, and as the library is for the public, we have endeavored to meet this demand, so far as our means would allow, by supplying the best of the new books of fiction.

The recent books on nature and animal life, and even history, are written and illustrated in so much more attractive manner than of old, that they have lost much of their school book style and serve to entertain as well as instruct, and we would like to encourage this class of reading.

We note with pleasure the interest taken by some of our teachers in recommending to their pupils books which pertain to the studies in progress. It adds interest to the studies and shows that we have teachers who are not content to hear recitations, but try to awaken among the scholars a real interest in the subjects and open the way to a broader education than is found in school books alone.

We shall ask the town to raise a small amount for the purchase of books, in order that we may continue the plan of the past year, of frequent purchases.

Respectfully submitted,

Gross receipts from water rents	$4667 46	
Water rents, precinct use	1000 00	
Interest	2 14	
Sinking Fund earnings, water works surplus	126 97	
		$5796 57
Deduct Maintenence		$3128 34
Net income for year ending Feb. 15, 1903		$2668 23

The income this year is effected in two ways which may need a brief explanation. It will be remembered that at the last annual precinct meeting, it was voted to raise $1000 by taxation as hydrant rental. This amount has been raised, accounted for under the water department—passing through its books—and in turn transferred to the precinct general account. This money will be used in the payment of current expenses of the precinct.

This transaction increased the earnings of the water department by $1000 and is in accordance with a note under

the report of the Water Commissioners, printed in the annual report of the town Feb. 15, 1900.

While this increases the income to a considerable extent, abnormal repairs caused by lightning have tended to reduce it. The work of relaying the damaged lines which stands against "Renewal" but finally transferred to income account, cost $722.25 and in addition to this were experimental repairs on the same streets in triyng to stop leaks to the amount of about $75. This extra expense has been offset to such an extent by prompt payment of water rents, account of Feb. 1st bills, that if the $1000 hydrant rental had not been received, the net earnings would be about the same as last year. As a rule, we have received on Feb. 1st bills up to counting day about $1100 or $1200, while this year up to date the receipts have been $1450 for the corresponding time. This extra income will of course necessarily come out of next year's earnings, but we hope that the expenses will be lighter accordingly.

EXTENSIONS.

For many years in autumn we have experienced trouble at the intake, Loon Pond, from leaves and grasses collecting on the screen in the screen-box. It has been a great source of annoyance and quite expensive during the fall months. The trouble has finally been remedied by the extension of the intake into the pond, about 78 ft. 6 in. The result is that no leaves nor grass of any amount has been found on the screen and the cost in caring for the pipe at this end materially reduced.

The cost of this work was as follows:

Labor	$23 55	
Supplies	64 31	
		$87 86

This has been charged to "Extensions" and forms a part of the permanent construction account. This expense has been made up entirely in saving trips to the pond.

GATE HOUSE AND HORSE SHED.

The need of a small house over the screen-box at the intake, Loon Pond, has been apparent for a long time, to facilitate the care of the same. The commissioners took this matter under consideration as well as the construction of a small horse shed for the use of the engineer in charge and both the screen-box house and horse shed have been constructed under a contract awarded to Mr. E. C. Rumrill through a committee consisting of Mr. Chas. A. Jones and and Mr. Chas. Brockway, both members of the board, for $160. This amount has been charged to Construction Account and stands on our books under "Building Account."

CONCERNING WATER RATES.

From time to time there has been more or less feeling among water takers that the water rates should be reduced somewhat, raise more of the sinking-fund by taxation and set aside less from actual earnings of the water works; not especially that they thought the prevailing rates excessive, but as we understand, to cause non-water takers to help more in the payment of the water debt. While there is more or less ground for this argument, it should be borne in mind that the property not paying a water tax is a small proportion of the whole; that nearly half of our present sinking-fund set aside for the payment of the water debt (water bonds) has been derived from direct taxation; that in the future, a larger proportion is likely to be raised in this way, as the pipes in the water system must necessarily be getting weaker than when first laid.

This point was well illustrated the past season by the destructive work done by lightning on Wyman and Oak streets, when over thirteen hundred feet of cement-lined pipe was entirely destroyed. While we hope that we may not have a like experience again soon, still it is possible that the cement pipe in any street may be ruined in like manner from lightning during a shower at any time:

Therefore it is wise to have a comfortable cash balance on hand constantly for this purpose or any extensive repairs.

Water takers should remember that they are paying to a certain extent for the convenience of water in their homes —an advantage which the non-water taker cannot enjoy. Further, perhaps citizens of the precinct are not aware that some $6,000 in sewer bonds become due in 1904. These bonds will have to be provided for in some way. Immediately after the year 1904, we understand that there are $2,000 due and payable of sewer bonds of a later issue, each year for some years to come. In addition to this, the town increased its indebtedness to a large extent last year which was made necessary in rebuilding the stone bridge.

All of these unusual expenses in precinct and town go to make a very much heavier tax rate and as the rate at present looks pretty high and as the water rates are no higher and in some respects not as high as when the works were owned by a private company, the Board of Water Commissioners has thought best not to change the water rates at present. Naturally the rates will be lower as some of the debts of the precinct are taken care of later on. The vote taken at the last annual precinct meeting bearing on this matter was merely a suggestion or recommendation and read as follows: "Recommended that the water commissioners reduce the rate 25 per cent, if in their judgment, the condition of the sinking fund warrants it."

While the condition of the sinking-fund is necessarily fully up to the requirements, the Commissioners, in view of the foregoing reasons did not think it advisable to make any change in the rates and hope their decision will seem wise to water-takers and meet the approval of the citizens of the precinct.

DAMAGE BY LIGHTNING.

It is not often that so serious damage occurs to the water works as happened during a shower last season,

when lightning entered the main pipe on Wyman street. This is the second time that this line of pipe has been "struck." Water was immediately shut off on the street and it was thought that a few repairs only would be necessary. Repairs were made and water turned on, only to find more and worse leaks in many places and it was only after trying several times, that it was decided that repairs would not do and a new line of pipe would have to be laid. When this was found necessary and the commissioners began their search for pipe, they found the market quite bare of this material. Some half dozen of the leading pipe concerns were wired and in every instance, but one, they were informed that delivery could not be made for many weeks and in some instances till cold weather. One reliable house, Messrs. R. D. Wood & Co., Philadelphia, however quoted six-inch pipe for immediate shipment and at a lower price than the other bidders—$32.60 for 2000 lbs., f. o. b., Hillsborough.

The Commissioners wired immediate acceptance of the offer and believe they were very fortunate in securing the same. This pipe was laid on Wyman and Oak streets, a total of 1112 on Wyman and 225 on Oak street, at a cost of $1285.05, which included supplies of all kinds and labor. The work of laying the new pipe under the direction of Mr. W. E. Newman, was accomplished in a very short time and the pipe required no extra corking after completion.

The cost of this work has been divided as follows:

Charged to Renewal Account	$722 25	
" " Excess Renewal	562 80	
Total	———	$1285 05

Renewal Account is finally charged to Income Account, showing in Profit and Loss at the end of the year, while Excess Renewal is permanently charged to Construction.

REPORT OF

The Board of Education,

Special School District, Hillsboro Bridge,

FOR THE YEAR ENDING FEBRUARY 15, 1903.

The report in this department will, of necessity, cover more than one year's work as there was no report last year. At the end of the summer term 1901, Prof. Tracy, who had been the successful principal of our schools for two years, resigned to accept a more lucrative position in Claremont. Miss Tewksbury, assistant in the High school, and Miss McKellips of the Grammar school declined a re-election and Miss Blanchard, also of the Grammar school, gave up teaching. These teachers had all done most excellent work and the board was confronted with quite a task in filling these vacancies. Prof. R. B. Barton, who had been for over seven years principal of the Windsor, Vt., High school, was selected as principal and Miss Farman of West Lebanon, Miss Jones of Poultney, Vt., and Miss Kendall, who had previously been one of our teachers, were elected to fill these respective vacancies and the work has gone on uninterruptedly.

During this year the primary room was so crowded, there being more pupils than the seating capacity of the room would accommodate, that the board had to arrange for the lower grades to attend only half of the time and it

was thought that some additional room would have to be provided for this year. The sixth grade, however, which had been previously divided and put into two different rooms, was much smaller than usual and could be put together, thus giving a chance to take two grades out of the primary room and relieve for a time the congested condition. This is a problem, however, to be solved in the near future, as the High school is constantly growing and will have to utilize more room in the building. Then, too, it is much better to have these smaller children out of the building and in a building by themselves as they are constantly meeting with accidents among so many larger pupils. A new building will soon have to be provided for them.

At the end of the fall term, 1901, Miss Grace Powell, who was the oldest teacher in point of service, resigned to become Mrs. Tracy and Miss Mary Powell was elected to the vacancy. Only one vacancy occurred at the beginning of the present year. Miss Jones of the VIII. and IX. grades declined a re-election and Miss Harlow of Somerville, Mass., was elected to her place and has done excellent work.

The High school was much larger at the beginning of this year, necessitating the addition of fourteen seats and thus making the room too crowded. The prospects are that it will continue to increase and as we said before must have more room. Three graduates are now taking college courses and several others are taking professional or scientific courses and more interest is manifested in this department than ever before.

A four years' course of study has been arranged and the classes to graduate after 1903 will each have completed a full four years' course. Two young men of the class of 1902 are now in Dartmouth College and there is no reason why any student, desiring a college preparatory course, should not be able to get a good preparation here at home,

Quite extensive repairs to the outside of the building must be provided for this year. The heating apparatus and the ventilation are both defective and should demand the attention of those having pupils in school.

One year ago we had on hand a good stock of coal for fuel where now we have nothing except a little wood. This fact, together with the resignation of Miss Butler, teacher in drawing, and the employment of no assistant in the VIII. and IX grades has reduced the expenses and left us a much larger cash balance than last year.

The expense per pupil for books, paper, pencils and other supplies has been less than $2 which is very reasonable. These supplies, if bought by the individual scholar, would have cost at least $5. The average attendance has increased from 228 to 260, making a proportional increase in cost of supplies, but a less cost per pupil in current expenses.

The different grades are all in excellent working order and in charge of faithful and interested teachers who should have the hearty support and co-operation of every parent in the district.

JOSEPH W. CHADWICK,
MARY E. BROWN,
STILLMAN H. BAKER,
Board of Education.

There is also in the treasury a bequest from the late Nancy G. Moore of $100.00 to be used for the benefit of Division 6, Lower Village School.

On account of having run an extra school in Division 5 and also on account of having done some extra repairs in Division 11 the schools were only in session 29 weeks.

As the district was not made aware of the fact that said district was obliged to pay the High school tuitions, no money was raised for that purpose at the annual school meeting. A special school meeting was called in the fall for the purpose of raising the money. There was $106.50 due for tuitions at that time. The result of the meeting was that the district authorized the School Board to hire $53.25. Consequently the account now stands as follows:

Report of the Selectmen,

For the Year Ending Feb. 15, 1904.

To the Citizens of Hillsborough, N. H.

We respectfully submit for your inspection our annual report with the reports of all the other Town Officers and Committees as well as the Precinct Officers and School Boards to which we refer you for information regarding the receipts and expenditures in any of the departments.

You will doubtless notice that the indebtedness of the town has been increased during the year to the extent of $593.04. To offset this we desire to call your attention to the fact that the town's appropriations for the year 1903 were $2750.00 less than the year 1902 The unusual expenses of the town during the year are the Water street surface sewer costing $1474.15, police station and sewer, new road machine and harnesses costing about $500 more. All this should be considered in criticising the acts of your selectmen.

The petition of Mr. Amariah Smith and others for an extension of Whittemore to Holman Street, considering the expense attending its construction and land damages, we have referred to the annual town meeting for your consideration and action.

The Surface Sewer extension was a case of "had to be." Very soon after our election we were notified by Mr. Robt. B. Clement that it must be removed from its present location or pay damages for its extensive flooding of the land where it then emptied.

As soon as we could we investigated the matter

thoroughly but we were unable to arrange with Mr. Clement any satisfactory price for damages, Mr. Clement insisting with good nature that it must be removed from his land. We were able to obtain permission from Messrs. John B. Smith and George E. Gould of the Contoocook Mill Corporation to cross their land and empty into the river or raceway with no land damages provided the waste water was taken from the watering trough near the residence of the late Horace Gould on Water Street, thereby preventing the waste water from the trough and vicinity crossing and injuring the lumber yard. The sewer to remain as long as the present corporation owned the real estate but any damage done to it in operating the present plant, erecting new buildings or repairing the present ones to be repaired at the expense of the town.

The sewer, more than 1200 feet long with five manholes, has been completed and is in good working order. The excavating on part of Water St. and from it to the raceway was simply terrible. As it was impossible to obtain sufficient help here, after considerable effort and expense we were able to obtain eleven or twelve Italians who soon appreciating the situation struck for more pay, then for rubber boots and latest for less hours. The former was refused but the two last were granted and the sewer completed at a cost of $1474.15. (See note.)

By request of the Board of Health the Police Station has been connected with the sewer at an expense of more than $125.00 and the building repaired.

Owing to business engagements Mr. Walter J. A. Ward was obliged to be away nearly all the time since July 1, 1903. His absence rendered it necessary for the two remaining members to do the whole of the Selectmen's labor usually done by three. With these few remarks we respectfully submit our annual report.

WALTER J. A. WARD,
IRA W. JACKMAN,
MARCELLUS H. FELT.

Report of the Board of Health.

To the Selectmen and Citizens of Hillsborough, N. H.

The sanitary condition of the town continues good. The condition of the shores of Loon Lake, the source of the water supply of the Bridge village, have been supervised, and its waters kept free from pollution. If summer cottages continue to be built there, it may, in the near future, require decided action to continue the result.

There have been but few cases of infectious or contagious diseases within the limits of the town during the past year.

We ask the hearty co-operation of all citizens for the continuance of present conditions.

Respectfully submitted,

(Signed)

In presenting our report for the closing year, we regret that we cannot show a larger increase in the circulation of the non-fiction, or solid books. We have in the library and are adding each year, a large number of valuable and interesting books other than fiction, the reading of which by the young people we should be glad to see encouraged.

The room used for the library is becoming much crowded, and we shall soon be forced to move into better accommodations if such can be found.

We trust the town will make the same appropriation as last year, enabling us to continue our frequent additions of new books.

REPORT OF

Committee on Town History.

To fill vacancies on this committee, caused by resignation or death, three new members were appointed at the last Annual Meeting and later the Committee appointed another member, thus practically re-organizing the committee.

There was found no record of work done by the committee on any of the various topics pertaining to the town history, with the exception of a good amount of genealogical work by Dr. John Goodell, the only remaining member of the original committee.

At the present date, work has been done on five to six hundred families; also on such other topics as early industries, histories of the older churches, etc.

The committee has endeavored to engage some expert on historical work, but has not been able to find a suitable one. Some additional assistance is expected this spring, however, and more rapid progress can undoubtedly be made.

The genealogical work so far done has related principally to the older families and early settlers. On this line it has been exceedingly difficult to obtain sufficient and correct data, owing to the reluctance of relatives to furnish the desired information. Blank forms and letters have been sent to many in town and elsewhere without eliciting the slightest answer. It is of interest to the town to have a full record of our early settlers. It is of equal interest to the present descendants of those settlers, but the committee will be obliged to omit many names unless the citizens, to whom enquiries are made, will assist the committee in promptly furnishing answers to the several questions.

The town has been very generous in its appropriations for carrying on this work and we hope we may have the personal co-operation of every citizen, that we may produce a valuable and interesting publication, complete in all its different topics.

GEORGE W. HASLET, Secretary.

Tree Warden's Report.

As Tree Warden I submit the following report :

There have been thirty-two hundred (3200) trees marked—many of them the second time. Many of the first tags were removed or misplaced by parties which were liable to a heavy fine for the same.

I have given three public notices in regard to removal of trees in the village limits ; also have trimmed many in the same location.

This is the first year the town has given attention to preserving the trees and I am quite sure the people but little understood this purpose and the state law. The benefit eventually derived, I think, will be pleasing to the greater part of our people.

Tree Warden.

REPORT OF

Hillsboro Bridge Village Fire Precinct.

COMMISSIONERS:

H. J. GAGE, A. J. VANDOMMELE,
J. FRANK SULLIVAN.

We have been very fortunate in not having any serious fires the past year. The woods fire in June was quite an expense to the Precinct, having cost $122.55 to keep it under control. The fire department responded to six alarms during the year. We hope at some future time, the department may have more presentable quarters.

REPORT OF

The Board of Education,

For Special School District,

For the Year Ending February 15, 1904.

As soon as possible after the close of the schools in June much needed repairs began on the school house, and, although a portion of the appropriation remains in the treasury, the result is very satisfactory.

By filling the many crevices, the rooms have been easily heated by a ten-pound pressnre against fifteen in recent seasons and our school house in its new coat of paint is an ornament to the village.

The corps of teachers remains the same as last year, with the exception of the High School Assistant. Miss Farman's resignation at the beginning of the Spring term was regretted. Miss Trask completed the year's work successfully but resigned at the close of the term to accept a more lucrative position, and Miss Stratton, a graduate of Bates College, was elected at the beginning of the fall term. All seem interested and endeavoring to accomplish the best results for school and scholars. It is hoped that some way may be found to again include drawing in our course of study,

The High School will this summer, for the first time, deny the privilege of graduation to three-year students. This is necessary, under the state laws, if we are to be recognized as a High School and keep our pupils from going elsewhere and the town be responsible for tuition. Two graduates, class of '03, returned for the fourth year studies. The High School at the next Commencement will have a larger membership as there will then be four regular classes instead of three classes and two post graduates, as now.

One of the most encouraging features of the school, is the increased numbers in the higher grades.

In each of the eighth and ninth grades a few years ago there were not more than nine or ten scholars, one year but seven in one of them.

There are nineteen in the present ninth grade and thirty-six in the eighth. The aim to advance the standard of the schools has been seconded by the teachers, and, other things being equal, the next class to enter the High School will be better prepared than any previous one.

The co-operation and sympathy of the parents in matters pertaining to the educational and social welfare of the school and the pride and interest manifested by the citizens whenever the merits and ability of the pupils crave their approval, reflect credit on our village and are a source of gratification to teachers and members of the Board of Education.

Respectfully submitted.

JOSEPH W. CHADWICK,
MARY E. BROWN,
STILLMAN H. BAKER,
Board of Education.

Report of Committee for Building New School-House.

At the adjourned Annual Meeting of May, 1903, it was voted to appropriate $2000 for a lot of land and building, one thousand to be raised in 1903 and one thousand in 1904. No provision was made for borrowing the second thousand dollars, for use this year, and without such special provision, the committee had no authority for borrowing the money and the Board of Education also disclaimed authority. The committee, therefore, being unable to obtain the money, could do no more than purchase a suitable lot.

The committee regrets that it was unable to provide the accommodations so much needed. The amount of the appropriation, however, was entirely inadequate for providing a suitable building, and it is hoped that at the coming annual meeting enough additional money will be raised to erect a building which shall be worthy of our village.

The cash account of the committee to date is as follows:

DR.		
Received from Selectmen	$414 87	
CR.		
Paid for building lot		$400 00

Report of Board of Education,

Town School District,

For the Year Ending Feb. 15, 1904.

In presenting our report it is customary to make a few remarks in regard to the condition of our schools.

The schools as a whole seem to be in a prosperous condition and although there has been a lower percent of attendance than we wish, still as a whole we believe the scholars and teachers have worked together and have been supported by the parents.

Thanks to the liberal appropriations we have been able to give you thirty weeks of school and make a few repairs on the school houses and although many more repairs might be made to advantage, we believe all of the school houses are in comfortable condition.

We have tried to expend the money given us judiciously and hope for a liberal appropriation in the future.

We have made a few changes in the text books and added some new ones and believe them to be well adapted to the needs of the schools. In conclusion we wish to thank parents, scholars and all others for the kindness shown us and hope they will continue to give their hearty co-operation in the efforts for a profitable school.

ORRIN S. HUNTLEY,
LIZZIE S. TUTTLE,
JAMES M. RAY,
Board of Education.

REPORT OF THE BOARD OF HEALTH.

To the Selectmen and Citizens of the Town of Hillsborough, N. H.:

Your Board of Health is happy to report that the good sanitary condition of the town reported one year ago has continued through the past year. The town has been practically free from infectious and contagious diseases.

The conditions surrounding the source of water supply of the Bridge village are believed to be FIRST CLASS.

Two of your Board attended the "School of Instruction for Health Officers," held at Concord last December, with much benefit.

We again ask the co-operation of all citizens for the continuance of present good conditions.

Respectfully Submitted,

REPORT OF

THE BOARD OF EDUCATION,

For Special School District,

For the Year Ending February 15, 1905.

The Board of Education for the Hillsborough Bridge Special School District respectfully submits the following report for the year ending Feb. 15, 1905:

The progress of the schools for the past year has been very satisfactory and the citizens should feel gratified with the advance that has been made and the condition in which they are at the present time.

At the beginning of the school year we found that we had about seventy scholars in the second and third grades and only one school room with one teacher to accommodate this number. The board was obliged to divide them into two schools. They accomplished this by removing the first grade into a room in the Messenger building and using the thus vacated room for the second grade.

We have been fortunate in securing competent and efficient teachers who have manifested their ability and faithfulness, having a high conception of their responsibilities in the discharge of their respective duties.

We have at the present time forty-five scholars in our high school which has maintained a high degree of excel-

lence under the instruction of Prof. R. B. Barton and his able assistants. We are gratified to notice that the majority of the scholars realize that having completed or graduated from the ninth grade their education is not finished, but just commenced and a thorough course in our high school is essential and necessary. A thorough education or preparation to fit themselves to enter any college can be obtained if they so desire.

It is the desire of the board to work in harmony with all citizens, especially the parents of the scholars, to have our schools firstclass in every particular and we request that if any person has any suggestion to make whereby the schools can be benefitted they will bring it to the attention of the board who will be pleased to co-operate in all matters that will be for the best interest of our public schools.

We wish to express our thanks to the citizens of the district for their aid and assistance.

STILLMAN H. BAKER,
JOSEPH W. CHADWICK,
LUCY E. ANNIS,
Board of Education.
